IMPORTANT INFORMATION TO BE READ PRIOR TO COMPLETING THIS APPLICATION FORM.

1. Purpose

The purpose of this form is to provide baseline information for the submission of an application for the amendment of a valid Environmental Authorisation ("EA") in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA"), Environmental Impact Assessment ("EIA") Regulations, 2014 (as amended). **PLEASE NOTE: THIS IS ONLY AN APPLICATION FORM AND NOT THE AMENDMENT REPORT THAT IS TO BE SUBMITTED IN TERMS OF A PART 2 AMENDMENT PROCESS.**

2. General

2.1 Submission of documentation, reports and other correspondence:

The Department has adopted a digital format for corresponding with applicants or the general public. If there is a conflict between this approach and any provision in the legislation, then the provisions in the legislation prevail. If there is any uncertainty about the requirements or arrangements, the relevant Competent Authority must be consulted.

The Directorate: Development Management has created generic e-mail addresses for the respective Regions, to centralise their administration (i.e. notifying clients of decisions and receiving EIA applications, Notice of Intent form; request for fee reference numbers, etc.) Please make use of the relevant general administration e-mail address below when submitting documents:

DEADPEIAAdmin@westerncape.gov.za

Directorate: Development Management (Region 1):
City of Cape Town; West Coast District Municipal area;
Cape Winelands District Municipal area and Overberg District Municipal area.

DEADPEIAAdmin.George@westerncape.gov.za

Directorate: Development Management (Region 3):
Garden Route District Municipal area and Central Karoo District Municipal area

General queries must be submitted via the general administration e-mail for EIA related queries. Where a case-officer of DEA&DP has been assigned, correspondence may be directed to such official and copied to the relevant general administration e-mail for record purposes.

All correspondence, comments, requests and decisions in terms of applications, will be issued to either the applicant/requester in a digital format via email, with digital signatures, and copied to the Environmental Assessment Practitioner ("EAP") (where applicable).

- 2.2 The required information must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. The tables may be expanded where necessary.
- 2.3 Unless protected by law all information contained in, and attached to this application, will become public information on receipt by the Department. Upon request, the Applicant/EAP must provide any interested and affected party with the information contained in or submitted with this Application Form.

Protection of Personal Information Act, 2013 (Act No. 4 of 2013) ("POPIA"):

Your attention is drawn to POPIA which is a comprehensive data protection legislation enacted in South Africa and came into effect on 1 July 2020. POPIA aims to give effect to the constitutional right to privacy, whilst balancing this against competing rights and interests, particularly the right of access to information. Please note that your personal information will only be used as far as it relates to the EIA process. By including your personal details in the Form and any subsequent reports and documents it will be deemed as giving consent to use this information as far as it relates to the EIA process.

- 2.4 This form is current as of **April 2024**. It is the responsibility of the Applicant/EAP to ascertain whether subsequent versions of the form have been released by the Department. Visit the Department's website at <http://westerncape.gov.za/eadp> to check for the latest version of this Application Form.
- 2.5 This Form must be duly dated and signed by the Applicant and/or EAP (wherever applicable) and must be submitted to the Department at the details provided below. Please note that a new declaration must be completed and submitted for the specific form or report.
- 2.6 Please note that it is an offence for a person to provide incorrect or misleading information in any form, including any document submitted in terms of the EIA Regulations to a competent authority or omits information that may have an influence on the outcome of a decision of a competent authority.
- 2.7 Note that an incomplete Application Form may result in this Department not acknowledging such Application Form.

3. Administrative requirements

- 3.1 This Application Form must always be used for applications that must be subjected to an Amendment of an EA or Environmental Management ("EMPr") in terms of the NEMA EIA Regulations where this Department is the Competent Authority.

- 3.2 An **application fee may be applicable**. Where an application fee must be paid, a Request for a Specific Fee Reference Number form (Appendix A) must be completed and submitted to the Competent Authority to obtain a Specific Fee Reference number, **prior to the submission of this application form**. Where applicable, the Request for a Specific Fee Reference Number form (Appendix A) as well as proof of payment (Appendix M), must be submitted to the Competent Authority with the submission of this Application Form.
- 3.3 **Note that should a listed activity be triggered by the proposed amendment, a Basic Assessment or Scoping/EIR Reporting process must be followed and an application for EA must be completed.**
- 3.4 Failure to lodge this Application Form prior to the expiry of the validity period of the EA may result in the lapsing of the EA, due to the competent authority being unable to process the application for amendment within this period; An application for the amendment of an EA must be submitted to the relevant competent authority on condition that the EA is valid on the date of receipt of such amendment application.

4. Circulars, Guidelines and Tools

- 4.1 The Department's latest Circulars pertaining to the "One Environmental Management System" and the EIA Regulations, any subsequent Circulars, and guidelines must be taken into account when completing this Application Form.
- 4.2 When applying for a Part 2 amendment, The Screening Tool developed by the DFFE must be used to generate a screening report. Please use the Screening Tool link <https://screening.environment.gov.za/screeningtool> to generate the Screening Tool Report. The Screening Tool Report must be attached to this Application form as Appendix D.
- 4.3 When applying for Part 2 amendment, a Site Sensitivity Verification must be recorded in the format of a report and must be appended to the relevant assessment report. According to the "Procedures for the Assessment and Minimum Criteria for Reporting on identified Environmental Themes in terms of Sections 24(5)(a) and (h) and 44 of the National Environmental Management Act, 1998, when applying for EA" ("the Protocols"), before commencing with a specialist assessment, the current use of the land and environmental sensitivity of the site under consideration identified by the screening tool must be confirmed by undertaking a site sensitivity verification. The outcome of the site sensitivity verification must be recorded in the format of a report and must be appended to the relevant assessment report i.e., the draft amendment report. The protocols also indicate that compliance statements must be submitted when the information gathered from the site sensitivity verification differs from the designation of "very high" or "high" as identified in the Screening Tool unless adequate proof can be provided that there is "no sensitivity". A comment from the relevant Organs of State confirming that no further studies are required can also be submitted as supporting evidence. A copy of the Site Sensitivity Verification Report that conforms to the reporting requirements specified in the Protocols must be appended to the draft amendment report for comment. The Site Sensitivity Verification report must be attached to this Application Form as Appendix E.

5. Lapsing of the Application

An application for the Amendment of the EA or EMPr lapses if the Applicant fails to meet any of the timeframes prescribed in terms of the NEMA EIA Regulations.

6. Public Participation Process (Part 2 Amendment)

- 6.1 For a **Part 2 amendment process**, the proposed amendment(s) **must** be brought to the attention of potential and registered interested and affected parties, including State Departments/Organs of State which have jurisdiction in respect of any aspect of the relevant activity who **must** be given a minimum period of **30 days** to comment on the Report.
- 6.2 For a **Part 2 amendment process**, the proposed amendment(s) **must** be brought to the attention of landowner who **must** be given a minimum period of **30 days** to comment on the Report. Note that the landowner consent must be completed and submitted with the application form should the applicant not be the landowner.

GENERAL REQUIREMENTS

1. Applicants | EAPs and Specialists

An applicant must appoint an EAP at own cost to manage the application: Provided that an EAP need not be appointed for an application to amend an EA where no environmental impact assessment or part thereof is required as part of such amendment application. A Specialist may need to be appointed, at the cost of the applicant, if the level of assessment is of a nature requiring the appointment of a specialist.

The applicant must take all reasonable steps to verify whether the EAP and specialist complies with requirements set out in the EIA Regulations; and provide the EAP and specialist with access to all information at the disposal of the applicant regarding the application, whether or not such information is favourable to the application.

An EAP appointed to manage an application must be registered with an appointed registration authority contemplated in terms of section 24H of the NEMA. The appointed EAP must be able to provide proof that their registration is up to date and current.

An appointed Specialist performing work in accordance with the minimum information requirements specified in a Protocol published under Sections 24(5)(a), (h) and 44 of the NEMA, must be registered with the South African Council for Natural Scientific Professions (SACNASP). The appointed specialist must be able to provide proof of expertise as well as the SACNASP registration number.

2. Application Fees

- (a) An Applicant must pay a fee for the processing of an Amendment Application as set out in the Fee Regulations published in terms of sections 24(5) and 44(1) of the National Environmental Management Act, 1998 (Act No. 107 of 1998). It is acceptable for the appointed EAP to make the required payment on behalf of the Applicant.
- (b) An Applicant is exempt from having to pay the application fee if:
 - The application is for a community based project funded by a government grant; or
 - The Applicant is an Organ of State.
- (c) A fee of R2 000 is applicable to an application which must be subjected Part1, Part 2 or Part 4 Amendment process.
- (d) If the relevant application fee was not confirmed with the Department and a Specific Fee reference Number has not yet been obtained:
 - Complete the request for a Specific Fee Reference Number and e-mail it to the relevant Directorate. The Specific Fee Reference Number Form is attached as Appendix A of this form.
 - Where an Applicant is not required to pay a fee, the Applicant must inform the Department in writing by attaching proof thereof and a motivation to the Application Form.

NB: Your confirmed Specific Fee Reference Number MUST be used as a deposit reference when making a payment.

3. Locality Map and Site Development Plan

A locality map must be attached to this Form, as Appendix H. The scale of the locality map must be at least 1:50 000. For linear activities of more than 25 kilometres, a smaller scale e.g. 1:250 000 can be used. The scale must be indicated on the map. The map must include the following:

- an accurate indication of the project site position as well as the positions of the alternative sites, if any;
- road names or numbers of all the major roads as well as the roads that provide access to the site(s)
- a north arrow;
- a legend;
- the prevailing wind direction; and
- GPS co-ordinates (Indicate the position of the proposed activity with the latitude and longitude at the centre point for each alternative site. The co-ordinates should be in degrees, minutes and seconds. The minutes and seconds should be to at least three decimal places. The projection that must be used in all cases is the Hartebeesthoek94 WGS84 coordinate system;
- a digital copy of the GPS coordinates must also be provided in a KMZ File (.kmz) format. The KMZ File may be converted to a PDF format and submitted as such.

The EIA Regulations require that a map (i.e., a site development plan) at an appropriate scale which superimposes the proposed activity and its associated structures and infrastructure on the environmental sensitivities of the preferred site indicating any areas that should be avoided, including buffers; be submitted with the relevant EIA reports.

If the project has progressed to a point where a site development plan ("SDP") has been designed, the final plan must be submitted in a digital format with the Application Form. The Shape Files (.shp) for the site development plans must be in the Hartebeesthoek94 WGS84 co-ordinate system, and such plans must be included in an electronic copy of the report submitted to the competent authority).

4. Application Project Plan

A project schedule must be submitted as an Appendix K, and must include milestones for:

- public participation (dates for advertisements, workshops and other meetings, obtaining comment from organs of state including state departments);
- the commencement of parallel application processes required in terms of other statutes (WULA, Heritage and any other Department) and where relevant, the alignment of these application processes with the EIA process;
- the submission of the key documents (e.g. Part 2 Amendment Report and EMPs).

Note: All the above dates must take into account the reckoning of days as prescribed in the EIA Regulations, the statutory timeframes applicable to the Applicant and EAP, as well as the timeframes applicable in terms of authority responses as prescribed in the EIA Regulations. Possible appeals may impact on project timeframes/milestones.

AMENDMENT APPLICATION FORM

AMENDMENT APPLICATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 FOR: THE AMENDMENT OF A VALID ENVIRONMENTAL AUTHORISATION OR THE AMENDMENT OF AN ENVIRONMENTAL MANAGEMENT PROGRAMME

APRIL 2024

GENERAL PROJECT DESCRIPTION

(This must include an overview of the project including the Farm name/Portion/Erf number)

The scope and description of the listed activity under Section A in the amended environmental authorisation for the development of Erf 28005, Portion 8 of the development approved on Portion 22 of Farm Kraai Bosch No. 195 and Erf 23333, George (16/3/1/5/D2/19/0021/12 issued on 26 February 2013) needs to change. The 5.6987ha property located on Park Road, authorised for Business Zone I (building height limited to two storeys) development, must change, as it is now planned for a four-storey residential development.

Ownership of the property will also change and therefore the rights to the authorised activity need to be transferred to a new owner.

SECTIONS TO BE COMPLETED AND INFORMATION TO BE APPENDED

NOTE:

A **Part 1** amendment will not change the scope of a valid EA, nor increase the level or nature of the impact which was initially assess as part of the valid EA or refers to a proposed change of ownership or transfer or rights and obligations. Refer to the requirements detailed in Regulation 29 and 30 of the EIA Regulations.

A **Part 2** amendment will result in a change to the scope of a valid EA where such change will result in an increased level of impact or change in the nature of impact, where such level or change in nature of impact was not assessed and included in the initial application for EA; or taken into consideration in the initial EA. Refer to the requirements and process detailed in Regulation 31, 32 and 33 of the EIA Regulations.

A **Part 4** amendment relates to an amendment to the impact management outcomes of an EMPr before an audit is required in terms of the EA. Refer to the process detailed in Regulation 37 of the EIA Regulations.

Note that should a listed activity be triggered by the proposed amendment, a Basic Assessment or Scoping/EIR Reporting process must be followed and an application for EA must be completed.

PART 2: AMENDMENT APPLICATIONS

SECTION A: DETAILS OF THE ENVIRONMENTAL AUTHORISATION ("EA") | ENVIRONMENTAL MANAGEMENT PROGRAMME ("EMPr") AND PROPOSED AMENDMENTS

1.	Provide a description of the EA and/or subsequent amendments to the EA and/or EMPr. This must include the relevant Departmental and NEAS reference numbers. A copy of the EA must be appended.		
	DEA&DP Ref. No.	16/3/1/5/D2/19/0021/12	
	NEAS Ref. No.		
2.	Provide a brief description of the proposed changes to the EA and/or subsequent amendments to the EA and/or EMPr. This must include an overview of the project including the Farm name/Portion/Erf number. Clearly indicate whether the EA does not include operational aspects: The amendment concerns the scope of the development and associated description of the listed activity as authorised. The description of the activity under section A of the 2013 environmental authorisation reads as follows: "The proposal is for the construction of a mixed development comprising of Portion 1 Business Zone I (i.e. business, townhouses, flats, residential buildings, places of assembly, place of entertainment, place of instruction, institution, bottle store, supermarkets and service trade), Portion 2 - Public Open Space (i.e. remains open space), Portion 3 - Authority Zone (remains as before), Portion 4 - Residential Zone III (accommodates the N2 interchange), Portions 5, 6 and 9 - Business Zone I (business premises, by consent townhouses, flats, residential buildings, place of assembly, place of entertainment, institution, bottle offices, supermarket and service trades etc.), Portion 7 - Transport Zone III. Portion 8 - Business Zone I (building height limited to two storeys). Portion 10 - Business Zone I (building height is limited to three storeys), Portion 11 - Business Zone II (i.e. shop, townhouses by consent, flats, residential buildings, places of assembly, offices, supermarkets and restaurants) on the respective portions, of which the total area proposed for building construction covers approximately 240 000m ² and the first phase of the development proposal will consist of approximately 120 000m ² . Portions 1 - 11 collectively represent the subject property, namely Portion 22 of Farm Kraaibosch and Erf 23333, George." The amendment deals with Portion 8 (now Erf 28005 with an area of 5.6987ha) only. Development in terms of the EA has commenced and the subject property is one of three remaining undeveloped properties. In view of the change in the demand the owner wishes to develop the property with residential apartments (flats), rather than a mixed-use, office focussed development. The description of the activity on Erf 28005 (previously Portion 8 of the authorised development) must accordingly change to: <u>Erf 28005, George (previously referred to as Portion 8 of the development of Portion 22 of Farm Kraaibosch and Erf 23333, George) is authorised for residential development in apartment blocks up to four storeys in height.</u> The rights to the development must also be transferred from Laritza Investments 183 (Pty) Ltd to George Residential Apartments (Pty) Ltd, Reg. no. 2026/016581/07.		
3.	Is the Directorate Development Management the competent authority that issued the EA and/or subsequent amendments to the EA and/or EMPr? If <u>NO</u> , provide the details of the Competent Authority that issued the authorisation and details regarding their jurisdiction in terms of the NEMA.	YES	
4.	Is the EA and/or subsequent amendments to the EA and/or EMPr still valid (in force)? If <u>yes</u> , until when is the EA and/or subsequent amendments to the EA and/or EMPr valid?	YES	
No date given.			
5.	Were the activities commenced with on site during the validity period of the EA and/or subsequent amendments to the EA? If <u>YES</u> , describe the implementation of the EA and/or subsequent amendments to the EA to date (please indicate the individual listed activities commenced with).	YES	
All but three of the erven created in keeping with the 2013 EA have been developed. Erf 28005 is the largest of the three and all three are zoned for business use. Development commenced in April 2013.			
6.	Was the decision on EA and/or subsequent amendments to the EA and/or EMPr appealed by anyone? If <u>YES</u> , provide details of the Appeal Decision and a copy of the Appeal EA.		NO
7.	Does the proposed change(s) to the valid EA and/or subsequent amendments to the EA and/or EMPr, on its own, constitute a listed activity? Please ensure to complete Section E below.		NO
NB. If <u>yes</u>, the amendment application will not be considered, and you will be required to apply for EA from the Competent Authority to undertake the listed activity. In such a case complete the relevant Parts of this form.			
8.	Please indicate whether a Part 1, Part 2 or Part 4 amendment process is required (highlight the relevant box)		
	Part 1 amendment process	Part 2 amendment process	Part 4 amendment process
	*Complete Section A and B below.	*Complete Sections A; C and E below.	*Complete Sections A; D and E below.

Note: A Part 1 amendment will not change the scope of a valid EA, nor increase the level or nature of the impact which was initially assess as part of the valid EA or refers to a proposed change of ownership or transfer or rights and obligations. A Part 2 amendment will result in a change to the scope of a valid EA where such change will result in an increased level of impact <u>or</u> change in the nature of impact, where such level or change in nature of impact was not assessed and included in the initial application for EA; or taken into consideration in the initial EA. A Part 4 amendment relates to an amendment to the impact management outcomes of an EMPr before an audit is required in terms of the EA		
9. Provide a list of the similarly listed activities in terms of the latest EIA Regulations, 2014 (as amended) that are applicable to the project: Note: For an amendment of an EA to be considered, the listed activity(ies) in the valid EA must be similarly listed in terms of the latest EIA Regulations Listing Notices.		
Provide the activity number and description of the relevant Listed Activities from the previous NEMA notices or ECA notices as approved in the EA:	Describe the " similarly listed activity " identified in the current Listing Notices and provide a motivation and description of the portion of the proposed project to which the identified listed activity relates.	Describe how the activities are similar in nature.
Government Notice No. R386 of 21 April 2006		
Activity 1(k): The construction of facilities or infrastructure, including associated structures or infrastructure, for the bulk transportation of sewage and wafer, including storm water, in pipelines with - (i) an internal diameter of 0,36 metres or more; or (ii) a peak throughput of 120 litres per second or more:	Activity 9 of GNR 327 The development of infrastructure exceeding 1 000 metres in length for the bulk transportation of water or storm water— (i) with an internal diameter of 0,36 metres or more; or (ii) with a peak throughput of 120 litres per second or more; excluding where— (a) such infrastructure is for bulk transportation of water or storm water or storm water drainage inside a road reserve or railway line reserve; or (b) where such development will occur within an urban area. Activity 10 of GNR 327 The development and related operation of infrastructure exceeding 1 000 metres in length for the bulk transportation of sewage, effluent, process water, waste water, return water, industrial discharge or slimes – (i) with an internal diameter of 0,36 metres or more; or (ii) with a peak throughput of 120 litres per second or more; excluding where— (a) such infrastructure is for the bulk transportation of sewage, effluent, process water, waste water, return water, industrial discharge or slimes inside a road reserve or railway line reserve; or (b) where such development will occur within an urban area.	Erf is fully serviced with water, storm water, sewerage and electrical connections and does not require any new infrastructure to be installed. Activity is not applicable as development has commenced and has been concluded.
Activity 15: The construction of a road that is wider than 4 metres or that has a reserve wider than 6 metres, excluding roads that fall within the ambit of another listed activity or which are access roads of less than 30 metres tong.	Activity 24 of GNR 327 The development of a road— (i) for which an environmental authorisation was obtained for the route determination in terms of activity 5 in Government Notice 387 of 2006 or activity 18 in Government Notice 545 of 2010; or (ii) with a reserve wider than 13,5 meters, or where no reserve exists where the road is wider than 8 metres; but excluding a road— (a) which is identified and included in activity 27 in Listing Notice 2 of 2014; (b) where the entire road falls within an urban area; or (c) which is 1 kilometre or shorter.	Erf is fully serviced with road access on two sides and does not require any new road infrastructure. Activity is not applicable as development has commenced and has been concluded.

SECTION B: APPLICATIONS TO FOLLOW A PART 1 AMENDMENT PROCESS

Complete this section if a Part 1 Amendment process must be followed to amend the EA. Please highlight the relevant applicable sections and provide information in the blocks provided.

1.	Provide a concise description of the amendment(s) being applied for. This must include an overview of the project including the Farm name/Portion/Erf number:		
2.	Does the proposed change to the EA and/or subsequent amendments to the EA and/or EMPr relate to the change of ownership? Explain below:		
3.	Does the proposed change to the EA and/or subsequent amendments to the EA and/or EMPr relate to the transfer of rights and obligations? Explain below:		
4.	Does the proposed change to the EA and/or subsequent amendments to the EA and/or EMPr relate to the extension of the validity period of the EA? Explain below:		
5.	Does the EA and/or subsequent amendments to the EA and/or EMPr that was granted include operational aspects? If NO , explain why a Part 1 amendment process must be followed below:		
Note: Where the EA and/or subsequent amendments to the EA and/or EMPr does not include operational aspects, the period for which the EA is granted, may not be extended unless the process to amend the EA contemplated in Regulation 32 is followed. Furthermore, the period for which such EA is granted may only be extended for a maximum further period of 5 years.			
6.	Will the proposed changes to the EA result in a change in the scope of a valid EA? (NB: If yes , complete Section C: Part 2 Amendment Applications below).		
7.	Will the proposed changes to the EA result in an increase the level or nature of the impact? Provided: Such impacts were not initially assessed and considered when the application was made for the EA under consideration. Explain below: (NB: If yes , complete Section C: Part 2 Amendment Applications below)		
8.	Provide specific reasons for the amendment(s) being applied for.		
Note: A current written consent from the landowner must be attached as Appendix B and the endorsement from the Holder of the EA must be attached as Appendix C to this Form when submitted.			

SECTION C: APPLICATIONS TO FOLLOW A PART 2 AMENDMENT PROCESS

Complete this section if a Part 2 Amendment process must be followed to amend the EA.

1.	Provide the DEA&DP reference number of the EA and/or subsequent amendments to the EA and/or EMPr to be amended and a concise description of the amendment(s) being applied for.		
	DEA&DP Ref. NO.	16/3/1/5/D2/19/0021/12	
	NEAS Ref. NO.		
2.	Will the proposed changes to the EA and/or subsequent amendments to the EA and/or EMPr result in a change in the scope of a valid EA and/or subsequent amendments to the EA and/or EMPr? Explain below:	YES	
In terms of the previous EA (2013), Portion 8 (now Erf 28005) would be zoned Business Zone I with building height limited to two storeys, predominantly for offices, but not excluding small retail uses and flats above ground floor. The amendment is for the development of the property with residential apartments (flats) over the entire area of 5.6987ha. The proposed apartment blocks have heights up to four storeys. Accordingly, the visual experience of the area could change and the demand for municipal services would be different to what was initially planned. Traffic patterns will also differ, mostly with reversed flows (out in the mornings and in during the afternoons, which is the opposite for offices). The rights to the development must also be transferred from Laritza Investments 183 (Pty) Ltd to George Residential Apartments (Pty) Ltd, Reg. no. 2026/016581/07, the purchaser and developer of the property.			
3.	Will the proposed changes to the EA and/or subsequent amendments to the EA and/or EMPr result in an increase the level or nature of the impact? Provided: Such impact(s) was initially assessed and considered when the application was made for the EA under consideration. Explain below:	YES	
Yes, it is likely that the impact on municipal services infrastructure and traffic will change.			
4.	Provide specific reasons for the amendment(s) being applied for.		
There is a growing demand for residential accommodation and apparent lack of demand for office space. The land resource can therefore be better utilised for residential accommodation in keeping with the spatial planning policies of the Municipality. The land has been sold and the holder of the EA must transfer the rights to the new owner.			
5.	Specialist Input and Procedures for the Assessment and minimum criteria for reporting on identified environmental themes:		
5.1	Explain which environmental themes and protocols are applicable to your proposal.		
The following are recommended by the Screening Tool Report. However, in view of the site sensitivity verification reports as submitted herewith and the impact assessments undertaken at the time of the original environmental authorisation application, only those shown as agreed below are proposed. Agreed: - Landscape/Visual Impact Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_General_Requirement_Assessment_Protocols.pdf - Socio-Economic Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_General_Requirement_Assessment_Protocols.pdf Not required: - Archaeological and Cultural Heritage Impact, Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/GuidanceforHIA.pdf - Palaeontology Impact Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/GuidanceforPIA.pdf - Terrestrial Biodiversity Impact Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_Terrestrial_Biodiversity_Assessment_Protocols.pdf - Aquatic Biodiversity Impact Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_Aquatic_Biodiversity_Assessment_Protocols.pdf - Plant Species Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_Plant_Species_Assessment_Protocols.pdf - Animal Species Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_Animal_Species_Assessment_Protocols.pdf			
5.2	Will you be conducting the specialist input as recommended in the screening tool report?		NO
	If <u>NO</u> , please attach a SSVR as APPENDIX E and indicate for which Themes the specialist investigations will be conducted and provide an explanation why the others will not be undertaken or will not be undertaken at the level of assessment indicated in the STR.		
SSVR attached, together with two specialist assessment to confirm the ecological status of the land.			
6.	Will the proposed changes to the EA require changes to the provision of any engineering services? Explain below:		NO

Erf is fully serviced with water, storm water, sewerage and electrical connections and does not require any upgrading or new infrastructure to be installed.

Note: A current written consent from the landowner must be attached as Appendix B and where applicable, the endorsement from the Holder of the EA must be attached as Appendix C to this Form when submitted.

SECTION D: SPECIALIST INPUT

Note:

Please note that the submission of a report generated from the National Web Based Environmental Screening Tool in terms of Section 24(5)(h) of the NEMA must be used to inform the specialist studies.

1.	Will you be conducting the specialist input as recommended in the screening tool report?	YES	
If no, indicate which specialist studies will not be conducted and provide a motivation.			
Specialist assessment of the visual and socio-economic impact only, both of which also undertaken for the original authorisation in 2013, together with traffic and engineering services impact assessments.			
In addition to the aforementioned, a traffic impact assessment will be conducted.			
2.	Explain whether any protocols are applicable to your proposed development, if so, provide a list of the applicable protocols.		
- Landscape/Visual Impact Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_General_Requirement_Assessment_Protocols.pdf - Socio-Economic Assessment, https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/Gazetted_General_Requirement_Assessment_Protocols.pdf			

SECTION E: PART 4 AMENDMENT APPLICATIONS

Complete this section if an amendment to the impact management outcomes of an EMPr is required.

1.	Provide a concise description of the amendment(s) to the impact management outcomes of the EMPr being applied for.		
	DEA&DP Ref. NO.		
	NEAS Ref. NO.		
2.	Provide specific reasons for the amendment(s) being applied for.		
3.	Will you be conducting the specialist input as recommended in the screening tool report?	YES	NO
	If NO , please provide an explanation. Where specialist input is required, a SSVR must be attached as APPENDIX E and indicate for which Themes the specialist investigations will be conducted and provide an explanation why the others will not be undertaken or will not be undertaken at the level of assessment indicated in the STR.		

SECTION F: PUBLIC PARTICIPATION PROCESS

For a **Part 2** and **Part 4** amendment process, the proposed amendment(s) **must** be brought to the attention of potential and registered interested and affected parties, including State Departments/Organs of State which have jurisdiction in respect of any aspect of the relevant activity who **must** be given a minimum period of **30 days** to comment on the Report.

1.	Describe the proposed method of bringing the proposed amendment to the attention of the potential interested and affected parties OR registered interested and affected parties.		
	Bilingual notice in the local newspaper, by sending email notices to known interested and affected parties whose contact details can be obtained, and by fixing a notice on each of the two street fronts of the property.		
(a)	fixing a notice board at a place conspicuous to and accessible by the public at the boundary, on the fence or along the corridor of -		
	(i) the site where the activity to which the application relates is or is to be undertaken; and	YES	
	(ii) any alternative site.	YES
